"Feel Like Flying"

I feel like flyin
I wanna run away with you
And I feel like dyin
If I must go on livin without you

Oh love is a mountain
Evry man must learn to climb
And Id reach my highest ground
If you were mine

Oh you, you just need to say the word
And Ill be there
And the world is right
When someone really cares

I feel like flyin
I wanna run away with you
Dont you feel like tryin
I wanna spend my nights makin love with you

Oh love is a ghost
That evry man must learn to see
And I see your very soul
When youre near to me
Oh you, you just need to call my name
And Ill be there
And the time is always right
When someone cares
