"Love Me Now"

Yes I know how much you love me
But can't you realize I'd cause you just pain
Cause me like me capricious and free
Live life alone and confused
Yet loving whoever they choose

Yes I know how much you need me
But I just patronize with this affair
Cause my life I've needed to be
A man with a mind full of craves
Living to learn from each phrase

Love me now while I'm here
Love you this man
Take me as I am
The storm of your life

And hear me out I've something to say
Love is a moment in time
And now that it's yours and it's mine

Love me now while I'm here
Love you this man
Take me as I am
The storm in your life
