Hey woman walking on a wire
I know your back is to the wall
What lies in water lies in fire
Its all in how you take the fall

Why dont you stay with me
Oh, lay with me
Dont turn the lights on me
Tonight on me

(stay with me)

The streets are cold in new york city
Why dont we break the ice
Now just like a fool Ill be feeling guilty
So just this once I wont think twice

Why dont you stay with me
Oh, lay with me
The only crime I see
Is killing time with me

(stay with me)

And oh, what a feeling
When Im with you
You play with fire
What am I supposed to do

Hey woman lifes too short to straddle
Youre either right or wrong
So come on gamble
Just dont keep me hanging on

Why dont you stay with me
Oh lay with me
The only crime I see
Is killing time with me
