I feel like flyin'
I wanna run away with you
And I feel like dyin'
If I must go on livin' without you

Oh love is a mountain ev'ry man must learn to climb
And I'd reach my highest ground if you were mine
Oh you, you just need to say the word and I'll be there
And the world is right when someone really cares

I feel like flyin'
I wanna run away with you
Don't you feel like tryin'
I wanna spend my nights makin' love with you

Oh love is a ghost that ev'ry man must learn to see
And I see your very soul when you're near to me
Oh you, you just need to call my name and I'll be there
And the time is always right when someone cares

Oh you, you just need to say the word and I'll be there
And the time is always right when someone truly cares

Oh you, you just need to call my name and I'll be there
And the time is always right when someone cares

Oh love is a mountain ev'ry man must learn to climb
And I'd reach my highest ground if you were mine
