Giniro no sora hatenai  
Furitsuzuku netsu no youni  
Mijikai kisetu kaketeku  
Bokura wo nurashite

The never-ending silver sky  
Is like a continuous fever  
The short season flies by  
And soaks us

Nani mo motazu iku kara  
Tayorinai te no hira ni  
Madotte shimau yo

Whatever you will hold  
In the palm of your forlorn hand  
Will end your bewilderment

Yande shimatta ame ha  
Kono sora ni itami sae  
Nokosanai de

The weakening rain  
Hasn't even left behind  
The pain in this sky

Hikiau chikara to butsukeau omoi  
Kizutsukete demo dakiyoseta  
Kowaresouna kimi ni furete  
Mienai mono shinjiteyuku

The power that draws you and the thoughts that you  
run into  
Are painful, but embrace them  
Moved by your vulnerability  
I'm going to believe in the things that I can't see

Mou nani mo kowarenai yo  
Fukinukeru netsu no youni  
Mijikaku aoku kaketeku  
Bokura wo yurashite

I will no longer be frightened of anything  
As if I was blowing through the fever  
The short paleness flies past  
And sways us

[Douse nagareteku hibi...]  
Utsumuki nogashita no ha nanno yume?

[After all, the days flow by c]  
Looking down, what kinds of dreams are escaping?

Oreyuku youna kirameki ga hoshii  
Bokura ha ai wo shirinagara  
Tadoritsukenai ka yowai hikari  
Yoru ga akeru no wo matteru

Just as the stars will become visible and shine  
We will come to know love  
Without struggling along, I will wait  
For the weak light to clear the night out

Ashita dake ga kienai  
Tada togirenu yakusoku  
Kimi no hitomi ni yakitsuketai  
Kawaranu negai wo

As tomorrow won't disappear  
It's only an interrupted promise  
In your burning eyes  
There's an unchangeable wish

Giniro no sora hatenai  
Furitsuzuku netsu no youni  
Mijikai kisetu kaketeku  
Bokura wo nurashite

The never-ending silver sky  
Is like a continuous fever  
The short season flies by  
And soaks us
