Oh yeah this is one of the songs
when you have a relationship and you woman
is just being real distant and you ask her this

how come your so far away?
come back to me, do you hear me?
how come your so far away?
its so frightening, have i lost ya?
How come your so far away?
Have I hurt ya or depressed ya?
How come your so far away?
its so frightening, boo i love you!
How come?

Im lonely and i dont know where to turn
(im feeling every where and its killing me)
im so outta my mind, and it burns baby it burns
(what i reached out and came back right to me)
I had this bomb chick, i tricked, she switched
she was drawless and i lost this...
I deeply regret everything i done to you
so baby please tell me why...

how come your so far away?
come back to me, do you hear me?
how come your so far away?
its so frightening, have i lost ya?
How come your so far away?
Have I hurt ya or depressed ya?
How come your so far away?
its so frightening, boo i love you!
How come?

Im in agony and my heart is hollowed out
(theres nobody home, theres nobody home)
and once i was told,
this what love is all about
i wish i never found out

i wish this on no one
cuz this is nothing to be wished
and id give my right arm,

anything to be done with this
cuz it hurts, this pain
never the less you heal
but the time is what kills
and im sorry so tell me why...

how come your so far away?
come back to me, do you hear me?
how come your so far away?
its so frightening, have i lost ya?
How come your so far away?
Have I hurt ya or depressed ya?
How come your so far away?
its so frightening, boo i love you!
How come?

Im tired Im tired Im tired
Im tired Im tired and i want you back babe...
