"For A Long Time"

T's been a long time since i spoke my mind,
but i think it's about time to get a lot of my chest!
(a lot of my chest!)

i want you to listen closely, baby,
because i think it's time
and when i think it's time you know...
listen baby!

I've got a secret that i've been holding from you,
don't know what i would do!
girl, i'm with you every day
because we work together,

can we mix business with pleasure?
and i think it's about,
i think it's about time you know that
i've been wanting you for a long, long time,
and i've been loving you for a long, long time!
can you guess my emotion?
i've been loving you for a long, long time!
and i've been loving you for a long, long time!
words can't explain how i feel about you!...
