"Mistletoe"

Visit "[Mistletoe](#)" on MotoLyrics.com

All the ladies in the world
I wanna kiss under the mistletoe
You want it like that?
Do you want it like this?
Do you want this?
Where do you want that mistletoe?
Where do you want that mistletoe?
Where do you want that mistletoe?
Where do you want that mistletoe?

I know is cold outside
But I'mma keep you warm tonight (warm tonight)
It's there, seen by the fireplace,
Won't you hold on tight?
Since you've been a good girl,
Since you've been in my world
I give you everything is on your wish list
Have you thinking every night is christmas?
Baby, in a way you put it all...
I'm talking about the mistletoe!
Just place it down your neck,
And let me do the rest, baby!

Chorus:
Where do you want the mistletoe?
Let's try my favorite place,
Right up on your waist, baby!
Where do you want the mistletoe?
Just place it down your neck,
And let me do the rest, baby!
Let's try my favorite place,
Right up on your waist, baby!

I know my name ain't santa clause, but come sit on my lap!
Keep doing it like that, I'll give you everything you ask
This shot, girl, is different
This shit, girl, will begin
... the bath tub
... to the bed to get your back rubbed
You'll never get enough of this!

Chorus:
Where do you want the mistletoe?
Let's try my favorite place,
Right up on your waist, baby!
Where do you want the mistletoe?
Just place it down your neck,
And let me do the rest, baby!
Let's try my favorite place,
Right up on your waist, baby!

Merry christmas, baby!
Everything you're asking for, I'll give it to you
Happy new year, baby
Tell me how you want your present, I'mma give it to
you!
... each other, yeah baby!
... took you to ecstasy when your body is next to me
Love it when you're kissing me, right next to the
christmas tree, baby!

Chorus:
Where do you want the mistletoe?
Let's try my favorite place,
Right up on your waist, baby!
Where do you want the mistletoe?
Just place it down your neck,
And let me do the rest, baby!
Let's try my favorite place,
Right up on your waist, baby!
