I'm on my way it's an emergency I hear it in your voice
when you talking me
You got me driving fast speeding like an ambulance
I gotta get to you
Let me be your paramedic, he just doesn't get it
He just keep on breaking your heart, Shawty listen
I'm your paramedic, let go of the headache
Girl I can't wait to resuscitate you

No I'm no doctor but I can make you feel better
I know you're hurting he ain't working and I'm certain
that I
Can describe the choir
It ain't healthy you and him and that's what I'll be here
for
Let me be your paramedic, he just doesn't get it
He just keep on breaking your heart, Shawty listen
I'm your paramedic, let go of the headache
Girl I can't wait to resuscitate you

Let me be your paramedic, he just doesn't get it
He just keep on breaking your heart, Shawty listen
I'm your paramedic, let go of the headache
Girl I can't wait to resuscitate you

Let me be your psychiatrist, dermatologist, â€¦,
pharmacist, â€¦
Psychical therapist, entomologist or â€¦ whatever it is
Let me be your paramedic, he just doesn't get it
He just keep on breaking your heart, Shawty listen
I'm your paramedic, let go of the headache
Girl I can't wait to resuscitate you
Let me be your paramedic, he just doesn't get it
He just keep on breaking your heart, Shawty listen
I'm your paramedic, let go of the headache
Girl I can't wait to resuscitate you
Let me be your psychiatrist, dermatologist, â€¦,
pharmacist, â€¦
Physical therapist, entomologist or â€¦ whatever it is.
