[Chorus:]

The way that you call my name  
It just don't feel the same  
If it ain't true  
Cuz I know I played the game  
Found out I met the change  
Till I found you (Till I found you)

[Verse 1:]

I would've known the first thing to do  
If I really had the chance with you  
Since you've burned into my life  
You've shown me the love that's true

Seems like I've been around the world  
Cuz I've had my share of heartbreak  
All these other women  
Don't compare to you

[Hook:]

So I wanna know something  
Can you and me go out on the weekend  
Babygirl you leave me speechless  
Wake me up cuz I must be dreaming

Beh-beh-beh Baby close my eyes  
Now that I got you by my side  
Hold me close  
Next to you is where I wanna be

[Chorus]

The way that you call my name  
It just don't feel the same  
If it ain't true  
Cuz I know I played the game  
Found out I met the change  
Till I found you (Till I found you)

[Verse 2:]

Everytime my cell phone rings  
I pray that it is you on the other line  
(No one knows that I want ya)

Cuz I can't seem to get you off my mind

I tried and tried  
But other shorties can't compete  
(My heart spins this handle)  
Would you mind missing me

[Chorus:]  
The way that you call my name  
It just don't feel the same  
If it ain't true  
Cuz I know I played the game  
Found out I met the change  
Till I found you (Till I found you)

[Hook:]  
So I wanna know something  
Can you and me go out on the weekend  
Babygirl you leave me speechless  
Wake me up cuz I must be dreaming

Beh-beh-beh Baby close my eyes  
Now that I got you by my side  
Hold me close  
Next to you is where I wanna be

[Chorus:]  
The way that you call my name  
It just don't feel the same  
If it ain't true

Found out I met the change  
Till I found you (Till I found you)

Uhh  
Yeah  
Tell me brother  
Right from the batcave
