Angel Child

(copyright 2009 F.Gioia, M.Soucy, J. Hancock)

Lyrics by Gioia

Verse 1

All I want to see

All I want to see is in your eyes

Shut the world down

Shut the world out from our lives

All I want to touch

All I want to touch is your face

Look at us what we've found this time

Look at us, a new place, a new place

Refrain 1

Angel Child I know that we can do this

Angel Child I know it

Angel Child these feelings can't be reasoned

Angel Child just take it

Verse 2

All I want to feel

All I want to feel is your charm

Take me to the stars

Take me to the stars in your arms

All I want to hear

All I want to hear is your voice

A saying that you care

Saying that this love is your choice, no choice

Refrain 2

Angel Child I know that we can do this

Angel Child I know it

Angel Child the feeling can't be reasoned

Angel Child it's your kiss

Angel Child there's no one left to answer

Angel Child you know it

Angel Child just say that you will come

Come take it

Bridge

Well all that you are tonight, is all that I want tonight
And all that I want tonight is, your kiss
Shut the world down from time, I'll give you the world in
flight
And you got the green light to your, every wish

Playing your aces, with amazing graces
And touching your favorite place is, pure bliss
So all that you are tonight, is all that I want tonight
And all that I want tonight is, come on, make a wish

Verse 3

And all I want to see tonight
All I want to hear
And all I want to touch tonight
All I want to feel

And all I want to see tonight
All I want to hear
And all I want to touch tonight
All I want to feel

All I want to hear
All I want to hear is your voice
A saying that you care for me
Saying that this love is your choice

Refrain

Angel Child I know that we can do this
Angel Child I know it
Angel Child these feeling can't be reasoned
Angel Child just take it (Your all I ever need)

It's your kiss
It's your kiss
Angel child, we can do this
Angel child, your all I ever need
