Move over
Move over
Let the man in
Move over
Look out you'll let the man of sin in
He may tell you what he think of you
Not by his words but by the things he 'll do
Move over
Move over
Let he man come in
Move over
Move over
Let his love come into your heart
You may think you're 'bout to be abused
Yeah, but then again you just might be amused
Move over
Move over baby
You're too far over
Move over baby
You may think that he's a friend in need
But I've heard it said that he's a friend indeed
Move over
Move over baby
You're got to move over if you want his love
Shine into your heart.
