You could be the answer to my lonely dream  
It's my only dream, dream it every night  
It's about a girl who makes the waters still  
Takes my troubled mind and makes it all seem right

Oh, what a change, what a change that would be  
I can feel it comin' over me  
Maybe it's strange, strange to say  
But I can't remember how, how it used to be

You could be the answer or another dream  
Just another dream, how will I know  
I'm afraid to wake up now and face the day  
Comes the light of day, she'll have to go or stay

Oh, what a change, what a change that would be  
Just to wake and find you still here  
'Cause every time, time before  
When I open up my eyes you always disappear

We could sit and hope that you'll be seen  
We could talk about the world and in between  
And when the morning light was through  
Then I could see if it was really you

Oh, what a change, what a change it could be  
I just hope it's comin' over me  
I know it's strange, strange to say  
But I can't remember how, how it used to be

Oh, what a change, what a change it would be  
Can you see the comin' over me  
I know it's strange, strange to say  
But I can't remember how, how it used to be
