Read the paper
whatta you see
War in Asia
hunger and greed
Murder in the Bronx
rape in the park
Pollution in the city
tomorrow looks so dark.

Everybody join hands with your fellow man
And work together to save our land
Take a look around
take a look inside
Oh can't you see we gotta turn the tide.

Man in the prison calling out to me
Needs another chance
wants to be free

And in a way like that man
We're just as guilty if we don't lend a hand.

Everybody join hands . . .

If things go on like this much further
We're gonna be guilty of murder

So let's start thinking 'bout tomorrow
Today - please don't - delay.

Start to love
stop this hate
Change the world
it's not too late

Work for freedom work for peace
And try to make this madness cease.

Everybody join hands...
