# "Everything"

Visit "[Everything](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Take a look around you, open your eyes and see what's  
there

Love is around it's everywhere

Too much to compare to

Why would you... what we have

Guess someone else is happy now

We got all this and heaven too

We got everything else

Nothing we can't do X 2

Take a look around you, open your eyes and see what's  
there

Love is around it's everywhere

The grass is so, it's greener

... from beyond the side...

We got all this and heaven too

We got everything else

Nothing we can't do X 4

... makes it hard,

... private days we don't have

... in your head... makes it hard

Makes it so hard

... private days we don't have

We got all this and heaven too

We got everything else

Nothing we can't do X 4.
