Clumsy Sky

picture me away

are we alright now?

something's gonna happen

you're staring off now to the sky

we're staring off now

hush heart just play dumb

you are waiting..

are you waiting for my sign?

slip away now

bite our lips now

deep in the crowd

you're the matter of my secret heart

whisper codes under the hush sky

smiles light up the night

are you waiting?...

you are waiting for my sign

in the back row

we will be alone

as they all walk by

I'm sorry just stop

you say I apologize too much

I'm sorry just stop

I'll only apologize when I'm wrong

are you ready?

are you ready for my sign ...

slip away now

bite our lips now

deep in the crowd

you're the matter of my secret heart

whisper codes under the hush sky

and we are the stars that light up the night
