Say
Everyone will quote me on this line
say I
I will say I
dust as dust as ancient ones
born again and die not us
you will stay or go
I made you up inside my head
gentleman take off your hats
I'm going out tonight
everyone will quote me on this line
"save me"
say I
I will say I
dust as dust as ancient ones
born again and die not us
you will stay or go

I made you up inside my head
gentleman take off your hats
I'm going out tonight
everyone will quote me on this line
but don't save me no don't save me
cause I'm going away
but baby don't worry
we're not gonna stay too late
safe was a very happy game
for the lovers tonight
in the black of the night
safe
why wait why say it's ok
