It's quarter past 5 and it feels like another dimension
Everybody knows that we're going out tonight
Somebody says no and that's when I remember to
mention
We're gonna party party like it's nineteen ninety nine

So pick me up lets go
Go far away from home
It doesn't't't't matter where coz baby I just wanna roll
We're putting on a show
Varieties and vogue
Lets do it
Lets do it
Lets do it

You can take the darkness out of the night
You can take the tick tock out of time
Go and take the angry out of the world
But you can't take the party
You can make a rocket blast into space
You can make the earth into a better place
Go and give me diamonds, rubies and pearls
But you can't take the party out of the girl
You can't take the party out of the girl

Paris in the spring and new york in the middle of
summer
I don't care where we go as long as everyone is there
And if you feel slow we'll dance until it sounds like
thunder
And when the ground starts shaking that's when you
know you better beware
So pick me up lets go
Go far away from home
It doesn't't't't matter where coz baby I just wanna roll
We're putting on a show
Varieties and vogue
Lets do it
Lets do it
Lets do it

You can take the darkness out of the night

You can take the tick tock out of time
Go and take the angry out of the world
But you can't take the party
You can make a rocket blast into space
You can make the earth into a better place
Go and give me diamonds, rubies and pearls
But you can't take the party out of the girl
You can't take the party out of the girl

Take me away
From my bad day
I just want to play

You can take the darkness out of the night
You can take the tick tock out of time
Go and take the angry out of the world
But you can't take the party
You can make a rocket blast into space
You can make the earth into a better place
Go and give me diamonds, rubies and pearls
But you can't take the party out of the girl
You can't take the party out of the girl
