I need that spend a stack drop it like a cadillac  
I need that spend a stack drop it like a cadillac  
I need that spend a stack drop it like a cadillac  
I need that spend a stack drop it like a cadillac  
I know why you're here you know  
What I'm here for you breaking that bread just  
to save a earful wanna lay me  
Down slow let's make this clear tho I'm  
worth it, invest it, I'll let you nurse it,  
Caress it oh  
Confess it - you know you wanna see me undress it  
No pressure - you good right now but you could do  
better  
'Cause I need it all now is that so hard I'm  
your baby doll and I get what I want  
'Cause I need it all the furs and stones  
I'm your baby doll and that's just what  
I'm on  
I need that spend a stack drop it like a cadillac things  
that bling  
That ring on my finger yeah  
And what I need ain't gotta be material that car  
That house ain't what makes me pull near to you  
but if you buy that car then  
I don't only wanna ride keep me running all  
night - let me put it in  
Overdrive  
Confess it - you know you wanna see me undress it  
No pressure - you good right now but you could do  
better  
'Cause I need it all now is that so hard I'm  
your baby doll and i get what I want  
'Cause I need it all the furs and stones  
I'm your baby doll and thats just what I'm  
on  
I need that spend a stack drop it like a cadillac things  
that bling  
That ring on my finger yeah  
Are you man enough  
To give me what I want  
So shine it up and jump off jump off

Looks so good it hurts  
But Imma make you work  
I'm work every penny  
Don't you forget it  
'Cause I need it all now is that so hard I'm  
your baby doll and I get what I want  
'Cause I need it all the furs and stones  
I'm your baby doll and thats just what I'm  
on  
'Cause I need it all now is that so hard I'm  
your baby doll and I get what I want  
'Cause I need it all the furs and stones  
I'm your baby doll and thats just what I'm  
on  
I need that spend a stack drop it like a cadillac things  
that bling  
that ring on my finger  
I need that spend a stack drop it like a cadillac things  
that bling  
that ring on my finger
