[Verse 1 - Tiffanie]

Ooh, there you go again
Talking to me without saying a word
Don't know what it is
That you're doing when you're looking at me
Can't put my finger on it, just know I really want it
Never had, never had, never had
Someone that makes me feel like this

[Chrystina]

I'd go, like a race car or a pilot on the G5
I'd go, like a homerun or a crook that sees police lights

[Tiffanie]

I wish I knew how you do it
When you do it to me, baby take you me through it
I lose control of myself
Boy you're something else

[Chorus - Natalie and Nichole]

Boy when you're staring at me
You do something crazy to me
You're making me blush
Can't keep my swag together (blush)
Love it when you say, ?I'll make it better? (blush)
You're making me (blush)
You're making me (blush)
You're making me (blush)
You're making me (blush)

[Verse 2 - Chrystina]

Ooh, when you gaze at me
My body be about to burn up
You have your way with me

And baby boy that's unheard of
?Cause I ain't never let nobody get that close
Of all the guys, you affect me the most
Never been, never been, never been
Looked at the way you look at me

I'd go, like a race car or a pilot on the G5

I'd go, like a homerun or a crook that sees police lights

I wish I knew how you do it
When you do it to me, baby you take you me through it
I lose control of myself
Boy you're something else

[Chorus - Natalie and Nichole]

[Bridge - Natalie and Nichole]
Got my face looking all rosy
Like a record baby???
Tried to hide it but boy you exposed me
I think this could be something special
All because you made me blush
I even like the way you touch me boy

Like a record babe???
So special (uh huh)
Could be something special
All because you made me blush
I even like the way you touch me boy

[Chorus x2]
