Underneath the moon  
The tumult that forces me to action  
'Cause I don't care what car they drive  
My ministry's the men who need to play

Underneath the moon  
The tumult that forces me to action  
There's so much dross  
Try me one more time  
Before it's really gone forever

'Cause life was talking through you mister  
I'm just listening to your system  
One and one ennui makes nothing  
You and you and me makes something

Life was talking through you mister  
Words to hit you like a piston  
One and one ennui make nothing  
You and you and me makes something

Struggling with realization  
I was hoping you would do it for me  
Someone backed me in a corner  
Grimed me with some slimy stories

Life was talking through you mister  
Words to hit you like a piston  
One and one ennui make nothing  
You and you and me make something

Hey, this new girl, right, right now

Underneath the moon  
The tumult that forces me to action  
'Cause I don't care what car they drive  
My ministry's the men who need to play

Underneath the moon  
The tumult that forces me to action  
'Cause I don't care what car they drive  
My ministry's the men who need to play

Life was talking through you, mister  
I'm just listening to your system  
One and one ennui make nothing  
You and you and me makes something

Life was talking through you, mister  
Words to hit you like a piston  
One and one ennui make nothing  
You and you and me makes something

Struggling with realization  
I was hoping you would do it for me

Grimed me with some slimy stories

Life was talking through you, mister

One and one ennui make nothing
