It's hard enough to be alone
It's harder still to spend so long
Looking for happiness
Feeling so restless

I know you feel like I do too
And even though I'm close to you
I can't be what you need
Cause you're just as lost as me

And I just want to get high
But everyone keeps bringing me down
And if you know something I don't
Come on and help me out

But I just don't understand
How the world keeps going nowhere

There's still so many people poor
Can't get my head around this war
All of this senselessness
I'm feeling so helpless

So many people live and die
And never even question why
All of their dreams are gone
How can they carry on?

I would like some peace of mind
I've got such a heavy heart
And you were broken down
Before you had a chance to start

And I just don't understand
How the world keeps going nowhere

I just want to get high
But everyone keeps bringing me down
And if you know something I don't
Come on and help me out

But I just don't understand
How the world keeps going nowhere
