It just feels like it's gone,  
Like all of it's gone,  
Gone away  
It seems like nobody's happy now,  
It feels like nobody's happy now

It really feels like it's gone,  
Like all of it's gone,  
Gone away  
Seems like nobody's happy now,  
It feels like nobody's happy now

It seems like nobody's happy now,  
It feels like nobody's happy now,  
It just feels like it's gone,  
Like all of it's gone,  
Gone away

It seems like nobody's happy now,  
It feels like nobody's happy now,

Keep me up, keep me down,  
Keep my feet on the ground  
Keep me up, keep me down,  
Keep my feet on the ground

Love, love, love, love,  
It's just a song  
Love, love, love, love,  
It's just a song  
Love, love, love, love,  
It's just a song  
Love, love, love, love,  
Come along
