Just a look was all it took  
Suddenly I'm on the hook,  
It's magic  
Follow you and follow me  
Everybody else can see  
It's madness

If there's one thing I know  
It's that I'm sticking with you,  
Nobody makes me feel better

Let the whole world pass me by  
Take me to the countryside,  
I must confess,  
If I manage to forget  
Everything from as of yet,  
Then what a success

I feel like starting new,  
That's why I'm sticking with you,  
Nobody makes me feel better

You've chased my fears away,  
That's why I'm sticking with you,  
Nobody makes me feel better

Just a look was all it took  
Suddenly I'm on the hook,  
It's magic  
Follow you and follow me  
Everybody else can see  
It's madness (x3)

Just a look was all it took  
Suddenly I'm on the hook,  
It's magic  
Follow you and follow me  
Everybody else can see
