"Just let me clear my throat"
One thing I would never try anymore
One thing I will never try
Pull me over Captain, would I lie?
Would I lie?

Yes sir
Only one now
I understand
This world ain't mine

That's one thing I would never try
One thing I would never do
I'd never take another look at you

Never take another look at you

(Please smash my face in
It's the least I can do)

Yes sir
The only one now
I understand
This place ain't mine

Where you coming from?
What you on?
You should have listened
To what they said
So where you coming from?
Where you going?
What you thinking about?
Seems like you're driving with
No hands
Like you're driving with no feet
What are you on?

Yes sir
I understand
This world ain't mine
