(Nicola)
Here I am
All Along
In The Rain
Wet as every
Never going to get back home
All I wish is that you was
Here my my side
For all of my night
All I think about every night is you
Oh, oh
The way you look they
I is the way you look
It feels like I see you every day
On the way i look on and on everyday wishing you was
here yeah
But here is where I'm waiting
All I wish is that you was
Here my my side
For all of my night
All I think about every night is you
Oh, oh
Oh yeah
The way you look you are so good inside my heart
All I wish is that you was
Here my my side
For all of my night
All I think about every night is you
Oh, oh
All I wish is that you was
Here my my side
For all of my night
All I think about every night is you
Oh, oh yeah yeah
