Annoying

(chorous)

This is starting to get annoying so get lost go away!  
I don't wanna hear no more lies no way!  
So listen now these lips have nothin' to say!  
Go now go away.  
I don't need you love and that's ok because this is  
annoying this is annoying!  
I'm locking the door so don't come home and don't  
bother calling me on the phone because this is  
annoying this is annoying!

Why were you always showing me up?  
You thought you could read me like a book!  
You always said I was wrong and you always knew how  
And i got sick of you calling me a cow!

(Chorous)

You thought you were really smart.  
Even though you were acting like a fart.  
You always came in late and never said where you  
were  
And i you made me fele like i was in a blur!

(chorous)x2

Why can't you just leave me alone.  
You're as bad as a dog with a bone.  
Go away now and leave me be.  
Your already annoying me as you can see!

(chorous)
