Barney is a dinosaur,  
From our imagination,  
And when he's tall he's what we call,  
A dinosaur sensation.

Barneys teaches lots of things  
Like how to play pretend,  
ABCs and 123s  
And how to be a friend.

Barneys friends are big and small,  
They come from lots of places,  
After school they meet and play  
And sing with happy faces.

Barney will always be there  
whenever his friends need him,  
Barney can be your friend too  
if you just make believe him.
