I watch you, while you're asleep
The one time I ever feel at ease
I got you, I know your game
It don't mean that I know how to play

What's wrong? We didn't fight
Just wish I could climb inside your ?trusted? mind
Where do you really go?
If someone has the answer, could you let me?

And through all our history
The man is a mystery
He takes what he wants from me
And leaves what he don't alone
Well, I'd rather walk away
Pretend that it's all okay
Than ask Mr. Cool to stay
Don't have a clue what she says here The man's in a
world alone?

It's over now, I've thrown the towel, can't work it out
Tried so hard, but in the end, there's too much doubt
And I was on my knees when he left me at the door
Strugglin' to pick my broken heart off the floor
A heart so cold, the truth unfolds, I can't say no
Why can't I turn my back and just let it go?
Done all I can to understand why it wasn't right
But I'm the one who cries in the night

So I won't be back
Standing as your trophy
Just like you own me
At least I know that

I've given my everything
Down to this song I sing

But your cold heart's no friend of mine
You're thrillin' me, you're killin' me
And I've been waiting all this time
And I...
I can't change this sorry song

You're makin' me, you're breakin' me
Confusion, it goes on and on
Hell, I should be gone

And through all our history
The man is a mystery
He takes what he wants from me
And leaves what he don't alone
Well, I'd rather walk away
Pretend that it's all okay
Than ask Mr. Cool to stay
Don't have a clue what she says here The man's in a
world alone?

Please...
I don't want another
Squeeze...
You work me like no other
Freeze...
You make it hard for me to
Breathe...
Somebody rescue me

And your cold heart's no friend of mine
You're thrillin' me, you're killin' me
And I've been waiting all this time
And I...
I can't change this sorry song
You're makin' me, you're breakin' me
Confusion, it goes on and on
Hell, I should be gone
