Can't explain how I'm feeling
So confused, never felt so alone
Tired of constantly wanting you near
Loving you, hating you
Here by the phone

One day we're up
We're doing fine
Along comes a vice
To mess with our minds
We're giving it all
Two fragile hearts
But each time reality tears us apart

Loving is easy
It's all of the rest that just gets in the way
Devotion don't feed me
Cos absence just leads lonely lovers to stray
Who says it's easy?
This journey called life's never liked me that much
Words only tease me
Sometimes love is not enough

Shakes in the night
Kisses so cold
Tears I can't cry
Stuck in this hole
Two separate worlds
Mine's filled with doubt
I'm just a girl
So what's this about?

Need some time to be alone
Tired of crying on the phone
Too much history
Shouting sorries in the rain
Round in circles once again
It's too much for me

Loving is easy
It's all of the rest that just gets in the way
Devotion don't feed me

Cos absence just leads lonely lovers to stray
Who says it's easy?
This journey called life's never liked me that much
Words only tease me
Sometimes love is not enough

Loving is easy
It's all of the rest that just gets in the way
Devotion don't feed me
Cos absence just leads lonely lovers to stray
Who says it's easy?
This journey called life's never liked me that much
Words only tease me
Sometimes love is not enough
