Everybody love, love, loves  
Everybody, everybody love, love, loves  
Everybody, everybody love, love, loves  
Everybody, everybody loves a lover  
Everybody love, love, loves  
Everybody, everybody love, love, loves  
Everybody, everybody love, love, loves  
Everybody, everybody loves a lover

All I do, do, do when my demon's hit  
I dial 999 say "get a Doctor"  
So damn tired  
Every shadow breaking my heart in two oh baby  
At night when my demon's hit  
I dial 999 say "I need a Doctor"  
I'm so damn tired  
Every shadow making my heart and soul go crazy

I miss you bow, now, now  
You're looking bow, wow, wow  
I'm slipping down, down, down  
I miss you bow, now, now  
I miss you bow, now, now  
You're looking bow, wow, wow  
I'm slipping down, down, down  
I miss you bow, now, now

I remember living the dream  
Twenty minutes in the hotel bar  
Then I slip into your girlfriend's jeans  
And I remember said "Baby, hold tight"  
Twenty hours in the twilight zone  
The only lovers in the world that night  
Oh I...

You're talking like you're gonna do the stupid thing  
Everybody wants to see you do that thing  
We're jumping in together when the bottle spins  
They wanna see you stop and let the fun begin  
You're talking like you're gonna do the stupid thing  
Everybody wants to see you do that thing  
We're jumping in together when the bottle spins

They wanna see you stop and let the fun begin

All I do, do, do when my demon's hit

I'm so damn tired  
Every shadow breaking my heart in two oh baby

You're looking bow, wow, wow  
I'm slipping down, down, down  
I miss you bow, now, now  
I miss you bow, now, now  
You're looking bow, wow, wow
