Every one will say I'll be Dead
But all you know is I'm still hanging over my head
My sister and me are living proof
When all is gone and have nothing to prove

All I know is that I'm going under
And my baby's here, with another another
But I have nothing to loose
When all my money is gone
But Never again, can I say I'm home

Mystery tours comes over head
And everyone will have said
My money's gone

My money's gone, until the end
But how will I cope, without something to spend
My money's gone, with nothing to loose
And here I stand, with out my goose

Ever since, I was standing here
My heart was beating, and hoping I'll get paid
It feel's like I'm dead to the world
But now you see, my money's gone
