Disco dancing with the lights down low
Beats are pumping on my stereo
Neighbor's banging on the bathroom wall
He's saying, crank the base, I gotta get some more

Water's running in the wrong direction
Got a feeling, it's a mixed up sign
I can see it in my own reflection
Something funny's going on inside my mind

Don't know what is pushing me higher
It's the static from the floor below
And then it drops and catches like fire
It's a sound I, it's a sound I know

It's the sound of the underground, the beat of the drum
Goes round and around into the overflow
Where the girls get down to the sound of the radio
Out to the electric night, where the bass line jumps
In the back street light, the beat goes around and
round
It's the sound of the under, sound of the underground

Chain reaction running through my veins
Pumps the bass line up into my brain
Screws my mind until I lose control
And when the building rocks, I know it's got my soul

Water's running in the wrong direction
Got a feeling, it's a mixed up sign
I can see it in my own reflection
Something funny's going on inside my mind

Don't know what is pushing me higher
It's the static from the floor below
And then it drops and catches like fire
It's a sound I, it's a sound I know

It's the sound of the underground, the beat of the drum
Goes round and around into the overflow
Where the girls get down to the sound of the radio
Out to the electric night, where the bass line jumps

In the back street light, the beat goes around and
round
It's the sound of the under, sound of the underground

I don't know what is pushing me higher
It's the static from the floor below
And then it drops and catches like fire
It's a sound I, it's a sound I, it's a sound I, it's a sound I
know

It's the sound of the underground, the beat of the drum
Goes round and around into the overflow
Where the girls get down to the sound of the radio
Out to the electric night, where the bass line jumps
In the back street light, the beat goes around and
round
It's the sound of the under, sound of the underground

Where the bass line jumps in the back street light
It's the sound of the under, sound of the underground
Where the bass line jumps in the back street light
It's the sound of the under, sound of the underground
