If it's not you
Oh no, I won't do that
You'll have to wait for me and that is that

Shoulda known, shoulda cared
I shoulda hung around the kitchen in my underwear
Acting like a lady, you shoulda made me
Oh, shoulda jumped a little higher
I shoulda fluttered my mascara like a butterfly
'Stead of being lazy, it woulda saved me

Shoulda known, shoulda cared
I shoulda hung around the kitchen in my underwear
Acting like a lady, you shoulda made me
Oh, shoulda jumped a little higher
I shoulda fluttered my mascara like a butterfly
'Stead of being lazy, it woulda saved me

Someone saved my heart today
Will someone turn the light back on
It's ever since you went away
The other rushes feels so wrong

That special something that they are hunting
They're always wanting, more and more

That special something that they are hunting
They're always wanting, more and more

Nobody sees the show, not 'til my heart says so
If it's not you, oh no, I won't do that
Boy if you want to be, my specialty
You'll have to wait for me and that is that

I won't, unless you want me to
(Ooh)
I want you, get in the queue
I won't, unless you want me to
(Ooh)
I want you, get in the queue

That special something that they are hunting

They're always wanting, more and more

That special something that they are hunting
They're always wanting, more and more

Nobody sees the show, not 'til my heart says so
If it's not you, oh no, I won't do that
Boy if you want to be, my specialty
You'll have to wait for me and that is that

Nobody sees the show, not 'til my heart says so
If it's not you, oh no, I won't do that
Boy if you want to be, my specialty
You'll have to wait for me and that is that

(Ooh, ooh, ooh, ooh, ooh, ooh, ooh, ooh)
Shoulda made me now, woulda saved me now
Shoulda made me now, woulda saved me now

Shoulda known, shoulda cared
I shoulda hung around the kitchen in my underwear
Acting like a lady, you shoulda made me
Oh, shoulda jumped a little higher
I shoulda fluttered my mascara like a butterfly
'Stead of being lazy, it woulda saved me

Shoulda known, shoulda cared
I shoulda hung around the kitchen in my underwear
Acting like a lady
(Shoulda made me now)
You shoulda made me, oh
(Woulda saved me now)

Shoulda jumped a little higher
I shoulda fluttered my mascara like a butterfly
'Stead of being lazy
(Shoulda made me now)
It woulda saved me
(Woulda saved me now)
