The candy ladies said, "Knock, knock, knock
Who wants to come to my candy shop
I give you something to take back home
To give you shivers that you didn't even know"

"But listen, honey, it's drop by drop
The stuff I'm sellin' it's hot, hot, hot
Mr. Magic is not some toy
He's gonna separate the men from the boys"

If every guy's a dog then, baby, throw me to the wolves
I'll never get to Heaven with my glass half full

I've been waiting all this time for you
And I've been hatin' all this talkin', baby, black and blue
'Cause I've been praying, what's a girl to do
'Cause it's been hard not tryin' to bite you with the
things I knew

Hey, there buttercup
You're like a peach on ice
I'm gonna heat your body up
And pray that it treats me good tonight

Hey boy, saddle up
Don't have to twist my arm
I like it when you lift my body up
And just enough to send me to the stars

All night, been lookin' at your hard-earned, six pack
Alright, I'll take ya back, feels like

I've been waiting all this time for you
And I've been hatin' all this talkin', baby, black and blue
'Cause I've been praying, what's a girl to do
'Cause it's been hard not tryin' to bite you with the
things I knew

Rap bap, the boy can do
Don't stop the rhythm 'cause I'm coming through
Rap bap, the boy can move
Backtrack the middle till I'm in the groove

Rap bap, the boy can do
Don't stop the rhythm' 'cause I'm coming through
Rap bap, the boy can move
Backtrack the middle till I'm in the groove
