It's always strange the way i feel  
When i'm looking back on things  
We've been lucky maybe who knows  
Or have we just made some good choices

Just sleeping quietly below trees  
Are we close to the end of dreams ?  
We were blinded by the scene

[chorus] [refrain]  
I was quiet fine, lost and wasting my time  
Asleep just by your side  
And i feel lighter  
My mind was close to get high so far away

The sun was disappearing fast

I was cold laying on the grass  
Awake by night, sad was my mind  
My dreams are short when they are fine

[chorus]

Don't go away from me  
Don't go away from here  
I had not enough

And something is easy  
When you looked to the sea  
And that's stupid stuff

Don't go away from me  
Don't go away from here  
I had not enough

I know we're not ready  
Our things are not easy  
Oh not easy
