Whatever makes you happy  
I'll do it for you  
Whatever makes you happy  
I am there for you

I see the light in your eyes  
Like stars so bright  
They are the dawn in my life  
I look at you and love this light

Whenever I see you being sad  
I wanna make you glad

Whatever makes you happy  
I will be there  
I want to make you happy

Here and anywhere

Whatever makes you happy  
I'll do it for you  
Whatever makes you happy  
I am there for you

Whatever makes you happy  
I will be there  
I want to make you happy  
Here and anywhere

Whatever makes you happy  
I'll do it for you  
Whatever makes you happy  
I am there for you
