Mad mad sister's coming out to play  
Mad mad sister, what did you do today?

Mad mad sister's coming out to play  
Mad mad sister, you're gonna show the way

It shouldn't hurt

But it does  
Who'll catch you when you fall?  
You made me  
I made you  
Out of nothing at all

Who's gonna catch you when you fall?  
Who's gonna catch you when you fall?

Mad mad sister's coming out to play  
Mad mad sister you're gonna fade away

I should have known, read the signs  
But that was another place, another time

Repeat chorus

Who's gonna catch you when you fall?  
Who's gonna catch you when you fall?

[f]mad mad sister's coming out to play  
Mad mad sister, what did you do today?

All your life's spent telling lies  
Is that madness i see in your eyes?

Repeat chorus

Who's gonna catch you when you fall?  
Who's gonna catch you when you fall?
