

Girlschool "Passion"

Visit "[Passion](#)" on MotoLyrics.com

I can't live without passion it shakes me up and drives
me on yeah
I need the fire to ignite and turn the darkness into light

I can't live without desire it lights the fuel and takes me
higher
It drives me on and through the dark until the fire starts
to spark

I can't live without the lightening cause only love is that
exciting
I light the flame and hold the torch and feel the burning
passion scorch

Have you ever felt the passion burn you to the core

Electric fever in your veins you'll come back for more

I can't live without desire it lights the fuel and takes me
higher
It drives me on and through the dark until the fire starts
to spark

I can't live without passion it shakes me up and drives
me on yeah
I need the fire to ignite and turn the darkness into light

I can't live without passion
