Watch out you know what its about
You're gonna find out tonight
Play rough gonna make it touch
Gonna set the place alight
I got news for you
An offer you can't refuse
Kick the walls down
We're gonna have it all tonight

If you play my game you won't be the same
Track you down and turn you around

Tear it up
Playing rough

Break loose stop acting like a moose
Always trying to be so cool
Take a bite of anything you like
All for fun and fun for all
When I get through with you
You can do what you wanna do
You can kick down the walls
We're gonna have fun tonight

If you play my game you won't be the same
Kick it down come on let's play around

Tear it up
Playing rough

So come on now don't be shy
Lets take a walk on the wild side
Come on now lets make some noise
Tear it up tonight
