"Up All Night"

Living our lives doing what we like
We live it up
Wouldn't change a thing always causing a scene
We're so tough

Shout out scream for more
We got what it takes we know what it's for

Up all night
Shout it in the streets
Till the morning light
Up all night

Speeding down the streets to a new
Sensation so hot
Burning in the heat we're an outrage
To the nation

Hey you don't waste time
Lets get together and take a ride

Up all night
Crawling from the wreckage
In the morning light
Up all night

I want all that I ask for
I want more than I need
I'll take all till I have more
I'm gonna make 'em bleed
