She never has time to inspect her surroundings  
It's touch and go with everything  
It's never enough to be sitting with nothing  
She's never too tired to run

Chorus:

And even if she had her way  
She'd be seeking out another  
She'll be half asleep during the day  
And sleepless every other

Close the door  
Feeling trapped in her living  
She rushes into activity  
Turn the page, see the line drawn through the days  
Wherein lies life's ecstasy?

Chorus

She reaches for a piece of silver  
Hoping gold is just beneath the surface  
I tell her color is way overrated  
She shakes her head

Chorus
