Dear Lord, I now address you, and tell you I can't see
How you would give your precious life for a human
wretch like me.

But if it would be possible to thank you face to face,
I would give a million worlds like this to be with you in
that place.

Please hear my prayer, my Savior, and please don't
make it long

'Til I can live and share with you the feelings of this
song;

'Cause I'm so weak and sinful, Oh, who else could
plead my case?

I would give a million worlds like this to be with you in
that place.

Be kind to me, Oh Father, when Judgement Day draws
near.

I'll serve you and I'll praise your name while I am
waiting here;

And if I could be honored just to gaze upon your face
I would give a million worlds like this to be with you in
that place.

Oh, I would give, I'd give a million worlds like this, to be
with you in

That place.
