Get ready is something that I've always said
But already I'm getting in over my head
It doesn't matter 'cause We've got something really hot
So get ready to give it everything that You've got

If it could always be like this
If it could always be like this
Feels like I never want to stop, never, never, Oh yeah
Oh yeah

I'm all ready for this to be a habit with me
And when You're ready I'll show You how it's going to
be
But don't You hurry, You just think it over and then
When You're ready We can do it over again

If it could always be like this
If it could always be like this
Feels like I never want to stop, never, never, Oh yeah
Oh yeah

If it could always be like this
If it could always be like this
Feels like I never want to stop, never, never

I was always one to stay all by my self standing on the
shore
You come riding in on a wave and You showed me
more

Yeah woo woo

Are You ready, 'cause it's already late in the day
So get ready, 'cause We don't have a moment to wait
Are You coming, or are You going to show what You've
got
So get ready to give it everything that You've got

If it could always be like this
If it could always be like this
Feels like I never want to stop, never, never, Oh yeah

Oh yeah

If it could always be like this
If it could always be like this
Feels like I never want to stop, never, never, Oh yeah
Oh yeah

If it could always be like this
If it could always be like this
Feels like I never want to stop, never, never, Oh yeah
Oh yeah

If it could always be like this
If it could always be like this
Feels like I never want to stop, never, never, Oh yeah
Oh yeah
