This could be my night alright  
'Cause after my request had been fully analyzed  
You indicated You might consent to tonight  
What a standout

It's complicated  
I tell You come out, You said that You would  
And then You call 'cause You don't think You should  
I'm thinking maybe You don't know what You've got  
You just don't know....don't know that You

Standout  
But You don't have a clue  
What's so clear to me is a mystery to You  
Standout  
And when You do  
There's no getting over You

So funny what our friends so often do  
Though their reaction is really nothing new  
They're talking to me but They're looking at You  
What a standout

And still You tell me yeah  
I guess I'll come out, well maybe I might  
Or could We make it for another night  
Ooh I'm thinking maybe You don't know what You've  
got  
You just don't know  
Don't know that You

Standout  
But You don't have a clue  
What's so clear to me is a mystery to You  
Standout  
And when You do  
There's no getting over You

Don't You know  
Standout  
But You don't have a clue

What's so clear to me is a mystery to You  
Standout  
And when You do  
There's no getting over You yeah

It's complicated  
I guess I'll come out, well maybe I might  
Or could We make it for another night  
Ooh I'm thinking maybe You don't know what You've  
got  
You just don't know  
Don't know that You

Standout  
But You don't have a clue  
What's so clear to me is a mystery to You  
Standout  
And when You do  
There's no getting over You

Standout  
You don't have a clue  
What's so clear to me is a mystery to You  
Standout  
And when You do  
There's no getting over You

Standout  
You don't have a clue  
What's so clear to me is a mystery to You  
Standout  
And when You do  
There's no getting over You
