"How About That?"

Visit "[How About That?](#)" on MotoLyrics.com

Oh and a lot of princessess used to be sluts
A lot of overweight bankers used to be studs
Oh and a lot of evil lawyers used to be really cool
How 'bout that yeah
How 'bout that yeah
Oh and a lot of stock brokers used to be broke
A lot of really straight people used to do coke
Oh and a lot of hip-hoppers used to like rock and roll
But as a matter of fact
We're all doing fine
And i'll just sit and relax
While your all changing your minds
And i'll just be over here
So just leave me the fuck alone
How 'bout that yeah
Oh and some heroin junkies used to work out
A lot of really certain people used to have doubt
A lot of heterosexuals used to go down for cash
But as a matter of fact
We're all doing fine
And i'll just sit and relax
While your all changing your minds
And i will be over there
So just leave me the fuck alone
How 'bout that yeah
How 'bout that yeah, yeah
How 'bout that yeah... yeah
How 'bout that
And as a matter of fact
We're all doing fine
And i'll just sit and relax
While your all changing your minds
And i will sit over there
So just leave me the fuck alone
So how 'bout that yeah
