I need to be alone to feel like trying
I understand the fear, the fear of lying
I need to let you know, to let you feel that i am leavin
I want to give it up, i need to go away
Oh i, i want you to know
Im trying so hard
I want you to know
Im trying
The reason for this mess is me i know that
Its all inside my head and my head is useless
I tried to make things good
But i make them worse when i am trying
I want to let you know that i'm leaving
Oh i, i want to let go of everything now
I want to let go of everything now
I want to let go of everything now
I want to let go... go... go... go... oh yeah...
Oh i, i want to let go of everything now
I want to let go of everything now
I want to let go of everything now
I want to let go of everything now
