I need to be alone to feel like trying  
I understand the fear, the fear of lying  
I need to let you know, to let you feel that i am leavin  
I want to give it up, i need to go away  
Oh i, i want you to know  
Im trying so hard  
I want you to know  
Im trying  
The reason for this mess is me i know that  
Its all inside my head and my head is useless  
I tried to make things good  
But i make them worse when i am trying  
I want to let you know that i'm leaving  
Oh i, i want to let go of everything now  
I want to let go of everything now  
I want to let go of everything now  
I want to let go... go... go... go... oh yeah...  
Oh i, i want to let go of everything now  
I want to let go of everything now  
I want to let go of everything now  
I want to let go of everything now
