I am a mess, you're a goddess  
i would like to see you get undressed  
give me a chance, i can breakdance  
i bet i could even impress your friends  
well all im trying to say is that i really like your style

well i can love you if you love me  
do you know what im saying  
and you can have my heart if i can have yours  
do you know what im saying

I am a mess, you're an actress  
i just wanna talk you out of that dress  
lets make love on the floor, its what i came for  
i wanna be the one that you adore  
well all im trying to say is that i really like your style

well i can love you if you love me  
do you know what im saying  
and you can have my heart if i can have yours  
do you know what im saying

well i can love you if you love me  
do you know what im saying  
and you can have my heart if i can have yours  
do you know what im saying
