Endless blockades for the pussyfooter

You no way notice the demagogue  
You no way notice the militaristic  
You no way notice the death in action

Bloody bomb bloody bomb  
Bloody bomb descend to you  
Bloody bomb bloody bomb  
Bloody bomb that they have

They surely send you the militaristic  
They surely send you the bombing  
They surely send you the death in action

KILL YOU, KILL PEOPLE

They detest to awake you from fool  
They detest they united masses  
They detest the repressed people's scream  
They detest the departed spirits in the third world
